TotalStor, a Ricoh Company

Estr. de Alfragide 67

2610-008 Amadora

Dear Recruiter,

My name is Gonçalo Alegria, and I have recently completed my Bachelor's Degree in Computer Science at Universidade Lusófona de Humanidades e Tecnologias. I am writing to express my interest in joining your team for an internship in cybersecurity, where I can apply my knowledge and contribute to your innovative projects in the field of data security.

TotalStor, as part of the Ricoh Company, is recognized for its commitment to excellence in IT services and the professional growth opportunities it offers its employees. These values resonate with me and reflect my passion for cybersecurity, an area where I aim to continue growing and learning. During my academic journey, I developed solid skills in programming (Kotlin, Java, and C) and cybersecurity, complemented by university projects and my victory in the CODY-25 programming contest, where I won 1st place in the beginner category, demonstrating my problem-solving abilities and attention to detail. I am particularly motivated to learn from your team of experts and develop and upgrade new cybersecurity skills while contributing to your goals.

My professional experiences as a candidate pilot with the Portuguese Air Force and as an apprentice carpenter at SetBaguinox have shaped me to tackle technical and collaborative challenges with confidence. With the Air Force, I accumulated 5 hours of flight time, developing resilience and discipline applicable to maintaining digital security protocols. At SetBaguinox, I supported the delivery of stainless-steel structure projects, enhancing my attention to detail, key for identifying vulnerabilities and teamwork organization skills. These combined experiences reinforce my adaptability and readiness to contribute to TotalStor, applying a strong work ethic and a continuous learning mindset to cybersecurity projects.

I have attached my resume for further details on my education and experiences. I am available for an interview or to provide additional information as needed. I am eager to discuss how I can contribute to your cybersecurity projects soon. Thank you for your attention, and I hope to contribute to TotalStor, a Ricoh Company.

Feel free to contact me thru my email ([g.alegria.set@gmail.com](mailto:g.alegria.set@gmail.com)) or my number (938877605).

Best regards,  
Gonçalo Alegria
